Dear Planning Officer

I write to object against the above planning application number.

My flat is just opposite the Generator so I am obviously very concern about health risks of having this antenna so close to my home. I have already objected to this antenna in the past and I do not understand why we have to go through this again specially at Christmas time.

Having lived in Knollys House for a long time, I know many people in the area (in Knollys House and in other buildings around) and I can say that I know no one who would be happy to have those antennas so close to our buildings.

Yours sincerely

Andre Thierry
