Dear Sir/Madam,

**THE TOWN AND COUNTRY PLANNING ACT 1990, AS AMENDED  
277A GRAY'S INN ROAD, LONDON WC1X 8QF  
APPROVAL OF DETAILS APPLICATION – CONDITION 9B GROUND CONTAMINATION**

---

We write on behalf of our client, Regal GI Limited, to request that the London Borough of Camden discharge Condition 9b (Ground Contamination). This condition is attached to the planning permission for comprehensive redevelopment at 277a Gray's Inn Road, London WC1X 8QF (ref. 2014/4267/P), approved on 10 October 2014. Please note that this original permission has been subsequently varied by a Section 73 application approved on 31 July 2015 (ref. 2015/2285/P).

The development comprises:

*“Demolition of existing building and comprehensive mixed-use redevelopment of the site to provide 60 residential units (including 14 affordable flats) comprising: 56 units arranged around the new open space (seven x 2 storey houses plus lower-ground floor, 49 x flats in 3, 7 and 8 storey blocks plus lower-ground floor) and 4 flats in a 4 storey plus lower-ground building on St Chads Street, with ancillary basement gym; with offices at ground and lower-ground floor, café/gallery (Class A1/Class A3) at ground floor, together with cycle parking, access, landscaping, boundary treatments and associated works.”*

This application follows the Council's approval of Condition 9a on 4 August 2015 (ref. 2015/2511/P).

The developer and the Council have entered into a Post Approval Agreement for the discharge of planning conditions, relating the original consent. As such we anticipate that a decision, subject to consultation, will be made on or shortly after 23<sup>rd</sup> day of validation.

**a. Condition 9b – Ground Investigation Report**

---

Condition 9b states:

*“At least 28 days before development commences (other than site clearance & preparation, relocation of services, utilities and public infrastructure, but prior to removal of any soil from the site):*

*(b) following the approval detailed in paragraph (a), an investigation shall be carried out in accordance with the approved programme and the results and a written*

*scheme of remediation measures shall be submitted to and approved by the local planning authority in writing.*

*The remediation measures shall be implemented strictly in accordance with the approved scheme and a written report detailing the remediation shall be submitted to and approved by the local planning authority in writing prior to occupation.*

Pursuant to this Condition, a Ground Investigation Report, prepared by Soil Consultants, outlines the investigation undertaken (in line with the Phase 2a Site Investigation and GQRA, and RMS as previously approved under Condition 9a), which included cable percussive boreholes, gas and ground-water monitoring and geotechnical laboratory testing.

The report then provides a summary of the ground conditions encountered, and provides foundation design recommendations, as required.

#### **b. The Application Package**

---

The application has been submitted via the Planning Portal and comprises:

- Completed application form for the approval of details reserved by condition;
- Cover letter, prepared by Icenip Projects Limited;
- Risk Management Strategy, prepared by Terragen Environmental Consultants Limited (dated February 2015);
- Phase 2a Site Investigation and GQRA, prepared by Terragen Environmental Consultants Limited (dated February 2015); and
- Ground Investigation Report, prepared by Soil Consultants.

We have paid the requisite fee of £97.00 via the Planning Portal. We would be grateful if you can issue a receipt.

We trust that the information provided is sufficient to enable the council to validate and discharge Condition 9, and look forward to receiving confirmation of this at the earliest opportunity.

In the meantime, please contact Rebecca Fieldhouse on 020 3725 3849

([rfieldhouse@iceniprojects.com](mailto:rfieldhouse@iceniprojects.com)) or Kieron Hodgson on 020 3435 4218
