Your comments on the planning application

There remain inconsistencies with the representation of the dormers in this proposal. The cill of the rear dormer on plan is shown deeper down the roof pitch than the front dormer but the elevations show the same level. This is clearly impossible. The applicant should really be asked to correct this and show either the true location of the dormers on plan or the true representation on elevation.
The rear dormer is too large to be acceptable and the front dormer is unacceptable in principle.
