The Council has considered your application and decided to grant permission subject to the following conditions:

Conditions and Reasons:

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and

Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policies DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans: OS Map; Revised Existing Plan (drawing no.1); Revised Proposed Plan/3 (drawing no.2); Revised 2 -Existing elevation (drawing no.3); Revised proposed elevation/2 (drawing no.4); Revised Side Section (drawing no.5); Revised Proposed roof plan (drawing no.6)

Reason: For the avoidance of doubt and in the interest of proper planning.

#### Informatives:

- 1 Reasons for granting permission.

The proposed rear extension would be a subservient addition to the host property and would respect the established rear building line of rear extensions at surrounding properties including nos.84 and 88 Goldhurst Terrace. It would be located at lower ground floor level and hidden from the streetscene by the existing perimeter fence. The extension would be constructed in brickwork and white render finish matching the main dwelling house and would comprise aluminium framed windows and doors which are considered appropriate for this location on the building.

There is an existing outbuilding in the rear garden in ancillary use to the dwelling house; however, it is not considered the cumulative impact would constitute overdevelopment of the site. There would be sufficient circulation space between the extension and the outbuilding and a garden area would still remain.

The proposal is considered to preserve the character and appearance of the conservation area. Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the Conservation Area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

The proposal is not considered to cause any adverse impacts on the amenity of adjoining residential occupiers. It is not considered that the additional height on the boundary wall between no.82 would have an adverse impact on daylight/sunlight or outlook.

No objections have been received prior to making this decision. The planning history of the site has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework.
