Re : 2016/5914/P 36 Primrose Gardens

Residential conversion from 2 x flats into three separate residential units consisting of (2 x 1 beds and 1 x 3 bed)  
self-contained flats and installation new external staircase between ground and lower-ground floor level.

OBJECT to proposed new rear staircase which is attached to the side of the bay window

The submission is very unclear.  
Adjoining buildings not shown.  
Revised and superceded drawings have the same number.  
Difficult to follows where all the new units are located.
