2016/5923/P	ilir mani	5 frogal court finchley road	28/12/2016 17:33:10	APP	I would like for this application to be rejected as it will create enormous disturbance for current owners in addition to building not being able to sustain the built and also it will trigger need for social housing units as planning permission has already been granted for flats at the rear of block. Frogal estate is one estate and its not split between front and rear blocks. Also new development would create overcrowding and loss of light
