2016/6205/P	Josepha Jacobson	9 New End	30/12/2016 00:17:12	COMMNT	Nick Tandy from Blenheim House Construction has repeatedly indicated at CWP meetings that the removal of these buttresses is not necessary to facilitate the works. Given that these buttresses are listed structures, given the potential for damage to Lawn House (another listed structure) with the removal of these buttresses, and given that it has been acknowledged that alternative methods are available to carry out the works - and the removal of the buttresses is not actually necessary - permission should be refused.
