

VRV IV S-series

Unseen in all the
best places

Compact VRV IV heat pumps
for residential and light commercial applications

Why choose Daikin VRV IV S-series?

You can install highly efficient, reliable Daikin air conditioning VRV systems in the most restricted locations because these outdoor units are invisible from street level.

Unseen in all the best places

Daikin VRV IV S-series offers you the most compact VRV air conditioning solution ever. It's ideal for environments where space is limited, has no visual impact and is quiet, so it is easy to comply with building regulations.

Compact

- ✓ Unique VRV outdoor solution
- ✓ Compact units with a small footprint integrate seamlessly into surrounding architecture
- ✓ Total flexibility for any location or type of property due to the unlimited possibilities of our of solutions
- ✓ Ideal for built-up areas where outdoor space is limited as the unit is easy to hide
- ✓ Outdoor air conditioning units can now be fitted where this was previously not an option
- ✓ Easy to comply with planning regulations, the best solution for urban locations such as homes, banks, shops or almost any other application you can think of

Daikin VRV efficiency, comfort and control

- ✓ Highest seasonal efficiency rating in their class (ESEER), reducing energy, costs and CO₂ emissions
- ✓ Unique Variable Refrigerant Temperature eliminates cold draughts and continuously adjusts unit operation to the actual conditions, maximising seasonal efficiency
- ✓ Centralised, easy to use controls ensure optimum operation, maximising efficiency and comfort
- ✓ Energy monitoring to follow up energy use and compare different properties (for commercial properties)

Quiet

- ✓ Highly suited to densely populated areas such as city centres thanks to their low operating sound
- ✓ Low noise modes reduce sound further to comply with inner-city noise regulations

Leading after-sales support

- ✓ Support wherever you need it, from Daikin UK's network of highly trained professionals
- ✓ Professional selection tools and excellent expert support reduce installation time, ensuring optimum operation and lower running costs

Flexible installation

- ✓ Lightweight units reduce installation time and effort
- ✓ Compact units extend the installation options

VRV IV S-series

Keep a low profile

VRV IV S-series units are an ideal solution when outdoor space is restricted because they are easy to hide, thus minimising both visual and sound impact. Their design overcomes the challenges that aesthetics and regulations can impose.

Space saving

The lowest unit in the market

The VRV IV S-series compact units fit easily behind low walls because they are the lowest on the market with a height of less than 1m, including the supporting legs.

Seasonal efficiency

The VRV IV S-series units have the best seasonal efficiency in the class, reducing both energy consumption and costs.

Subtle

The Daikin VRV IV S-series units are ideal for installation on a balcony or behind a parapet as they are front blow units which eliminates the need for any ducting saving on installation costs.

The unit can be installed out of sight and earshot of the property thanks to the long piping length
