Subject: 229 Brecknock Rd re Obs

Categories: Yellow Category

Hi Oluwaseyi,

I have the following observations on planning application 2016/6775/P for 229 Brecknock Road.

The site is currently occupied by a ground floor retail unit and it is proposed that an ATM be installed within the shopfront of the retail unit. The ATM would be installed on the left hand side of the shopfront and would be anchored within the shop to ensure its security. A new secure shopfront would be provided to surround the ATM and a section would be cut in the shop security roller shutter to enable 24 hour use of the ATM. The ATM would be operated by Note Machine and would offer free cash withdrawals to local residents and workers.

The footway width at this location is approximately 2.8m between the shop front and the carriageway. Therefore customers queuing at the proposed ATM will be unlikely to obstruct the footway.

I have no objections to the proposed ATM on transport grounds.

I trust that this is helpful.

Kind regards,

John Duffy
