Dear Patrick Marfleet,

**re. 29 Leighton Road, PA 2016/4487/P**

We are pleased to see that, following my representations to you about a week ago, the public notice regarding this revised Planning application has been changed. It is now clear that it relates to 29 Leighton Road and not - as confusingly appeared from the earlier notice - to nos. 29 *and* 27. Thank you for rectifying this.

I also note, however, that the 'Associated reference' 2016/6147/L, which appeared on the earlier notice and referred to the status of no.27 as a Listed building, has now disappeared entirely from the public notice. I do trust that the Council's requirement that the applicant for no.29 obtains Listed Building consent for his proposed work affecting the party wall with no.27 is still firmly in the Council's records?

Kind regards,

Gillian Lansdown
