2016/6483/P	John Festenstein	8 Briardale Gardens	10/01/2017 19:38:45	OBJ	<p>I note that part of the application is to change the front windows and install a fanlight over the front door.</p> <p>The windows are integral to the appearance of the houses on Briardale Gardens and although some have been altered most are still close to or actually original in design.</p> <p>The same applies to the front porches and although some have been enclosed many still original and only one off these has a fanlight, installed many years ago when conservation was not a matter of concern.</p> <p>I therefore urge that this element of the application be refused.</p>
