2016/6762/P	Jonathan Bradley	54 Willes Road	09/01/2017 14:56:01	OBJEMPER	I oppose the requested change. Holmes Road is a residential road, already suffering from excessive noise from students during term time. This is to multiply shortly with additional student accommodation under construction further along Holmes Road. This will create further noise and disturbance. The clause in the application was deliberate, to keep Holmes Road fit for residents. Any change to this clause should be looking to reduce noise and disturbance, not increase it. The change proposed is adding to the problem. I would request that this change not be taken forward.
