2016/6908/P	Kenton Price	7 Fielding Court 28 Earlham Street London WC2H 9LN	06/01/2017 03:32:49	OBJ	<p>I wish to object to elements of the proposed changes to the ground floor of the building in which I am a leaseholder resident.</p> <p>I do not like the widening of the shopfront onto Seven Dials itself. I do not accept the justifications given in the Design and Access Statement for change, and I feel this will detrimentally affect the look and feel of my building.</p> <p>I object to the removal of the information plaque to the left of Caffè Nero's front door, I think this adds tremendously to the value of Seven Dials and the building, and moving it to the right of my apartment front door will mean that this useful historical amenity is missed by visitors, historians, tourists and passers by. This means that the windows to Caffè Nero should not be widened towards the north of Monmouth Street, and the plaque should stay where it is.</p> <p>I do not object to the other changes, indeed I welcome the improvements to Caffè Nero on the Earlham Street side next to my apartment entrance.</p>
