Dear Kristina Smith  
Planning Officer Camden Council.

[Application No: 2016/5613/P](#)

My comments to the ones by the applicant posted online on 5 December 'Applicant's Response to Objections' 15 pages long posted just before comments closed hardly giving neighbours time to comment have not to date been posted online. The applicant has made comments that are not true in their long document. I replied to these in an email to you on the 9 December at 12.39 within the deadline date for comments. Please have these posted online as a matter of urgency. Neighbours quite rightly have been asking me to chase this up. I as the next door neighbour have been disadvantaged by the non-posting of my comments. Others were unable to see them and if they had seen them they too might have objected.

I also sent comments referring to, among others, policies CS5 (Managing the impact of growth and development) of the London Borough of Camden Local Development Framework Core Strategy and policy DP26 (Managing the impact of development on occupiers and neighbours) of the London Borough of Camden Local Development Framework Development Policies. Please have these posted online as a matter of urgency. Neighbours again quite rightly have been asking me to chase this up. Again I as the next door neighbour have been disadvantaged by the non-posting of these comments. Others were unable to see them and if they had seen them they too might have objected.

Yours sincerely

Michael Nourse
