2016/6563/P	Mr and Mrs Sarkozi	3 Back Lane London NW31HL	13/01/2017 12:50:48	COMMEMP ER	<p>The proposed top floor extension would cause loss of light,loss of privacy for our property.We are planning to have a flat roof terrace instead of the existing on,so the proposed top floor extension would cause the above mentioned problems.These 3 Victorian workmen's cottages,No 1,3,5 are quite fragile,our house has already suffered damage in previous times,cracks in the walls,falling tiles in the bathroom,loss of light because of the extension of kitchens on both sides,tree planted next to the party wall which takes away the sun.</p> <p>Any extension on the top floor for the existing room which would be used much more than it is today would cause extra noise.We can hear them going up and down, they often wake us up.It is really a disturbance for us.</p>
