**Subject:** Application 2016/7051/P 26 Fairfax Place London NW6

**Importance:** High

I am writing to you concerning application 2016/7051/P. My Mother owns one of the two garages below the flat. In the past we have experienced water damage from a leak at 26 Fairfax Place. Additionally, my Mother's garage shares electric power with the garage located on the other side of the entrance to the flat at 26 Fairfax Place, and with 26 Fairfax Place.

While I have no objection to the installation of the dormer window, I am concerned that there be no interruption to the electrical power supply to my Mother's garage, and that the work is performed in such a way as to avoid damage to the garage, its contents and to the pavement outside the garage which is part of my Mother's property. I also want to ensure that the owners and builder have adequate insurance in place to cover any damage to the garage and its contents.
