2016/7054/P	Alison Huntington	86a Burghley Road	22/01/2017 23:18:16	OBJ	I live opposite Burghley Court and I would like to object to this application on the grounds that the current building is perfectly in proportion with its surroundings and the current roofline is sympathetic to the Victorian terrace it is adjacent to. Another storey would spoil this well-achieved balance. I would think a new storey on top would also block easterly and southerly light from the houses at the end of the adjacent terrace.
