2016/7062/P	Sonja Ashbury	12 Adelaide Street WC2N 4HW	23/01/2017 12:42:39	OBJ	I strongly believe that affordable accommodation must be protected, otherwise we will see even bigger increases in the numbers of people sleeping rough on our streets.
2016/7062/P	ERSIN OZER	17 bury place WC1A 2JB	23/01/2017 18:09:30	OBJ	I am a local business owner around and I am having a huge benefit of this place already. Many visitors during the year stay over this place and eventually we get some business from them.I would not like any changes to happen these business and therefore if any objections to be made I would like to make it.
2016/7062/P	Luke	highbury new park	20/01/2017 21:14:09	OBJ	Making these developments will have a drastic effect on small local businesses making it harder for them to earn and grow as an organisation and possibly shut them down completely.
2016/7062/P	Jim MacSweeney	Gay's The Word Bookshop 66 Marchmont Street LONDON WC1N 1AB	23/01/2017 12:22:35	OBJEMPER	The Astor Museum Hostel has been there for many years providing much needed budget accommodation for the area. It's well regarded and has great reviews from its users many of them students and young people. London is already an expensive city and becoming even more so, and it's important that we offer a wide range of accommodation for visitors. They in turn have a big economic impact on local businesses. Do we need even more luxury apartments? The place is awash with expensive flats bought as investments and unlive in bringing no benefit to the local or business community. London still has a soul - although slowly being battered by gentrification. Please reject the application
