**Categories:** Yellow Category

Good Morning,

Thank you for your email to which the contents are noted.

The machine currently does not have any additional security features, however we can certainly install steel and concrete bollards, install a privacy zone, put mirrors onto the ATM surround and install a pin shield onto the keypad if it is found necessary.

We are just getting the spec of the CCTV cameras and further details of the alarm system at the moment. I will get this information back to you as soon as possible.

Kind regards,

Sophie Wilbond.
