

AN INTRODUCTION TO SKYLINE

Skyline elevators is a professional technical lift service with 15 years of experience.

We provide a complete service that covers repair, modernisation, installation and an array of service contracts. All our test engineers are trained to the highest standards and are practiced in health and safety accreditations. Staff training is constantly re-evaluated so keeping a breadth with new technology on lift systems traction or hydraulic. Skyline are accredited with ISO 2000 which ensures our customer of an outstanding performance record with the emphasis being on a 24 hour a day service for 365 days per year.

- **Lift service and planned maintenance**
- **24hr Breakdown and Repairs**
- **Modernisations**
- **New Installations**
- **Upgrades, LG Inspections and DDA works**

SAFETY & SECURITY

When you sign a contract with Skyline Elevators you can be sure that all your lift requirements meet the necessary government health and safety policies. With increasing European legislation prevailing with the UK covering all aspects of health and safety within the public sector is paramount. Skyline will ensure that all its clients are kept fully informed about current regulations.

Health and safety issues are paramount to Skyline. We are therefore fully conversant with:

- The Management of Health and Safety at Work Regulations 1999.
- The Health and Safety at Work etc Act 1974
- Lifting Operations and Lifting Equipment Regulations 1998 (LOLER)
- The Provision and Use of Work Equipment Regulations (PUWER)
- Safety Assessment Federation (SAFed)
- BS 7255 Safe Working on Lifts

SERVICES

All lift systems require regular and expert maintenance to ensure passenger safety, reliability and performance. We maintain all type and makes of lifts with our dedicated staff to a very high standard, offering customers the piece of mind you expect. Our service and technical staff provide 24hr 365 days a year assistance ready to take on any problem with the minimum of delay. Qualified engineers are available should you require permanent resident staff to ensure continuous presence on site.

We provide regular service and Risk Assessment reports to keep you informed of any statutory requirements together with reliability and safety issues giving you accurate data to help budget for any future expenditure.

With our integrated computer system we ensure engineer response times are kept to a minimum for any repair or breakdown. Contact us to arrange a detailed inspection of your lift system without obligation to provide you with a competitive quotation for repair or maintenance.

MODERNISATION

Our integrated team of professionals will give your lift system a new lease of life, expertly installing new equipment for old, to meet your budgetary requirements.

Whenever your lift system was originally installed we will work to develop a package to meet your needs. We will improve performance, reliability and safety as well as bringing your equipment up to date. Tailoring the modernisation to meet your own personal needs.

INSTALLATION

Skyline Elevators are highly skilled and able to install any type of lift installation, whether traction or hydraulic, and single to group lift systems. Our expertise and experience enables us to deliver the right product on time and on budget, maintaining close liaison with site personnel and allied trades to ensure a smooth and safe installation.

We supply and install the following:

- Passenger lifts
- Goods and Service lifts
- Group lift systems
- Machine Roomless lifts
- Scenic lifts
- Scissors platform lifts
- Disabled access lifts and stair lifts

REPAIRS

Skyline Elevators are skilled at carrying out Lift Guidance (LG) 'examinations and test' inspections, producing reports on reliability and safety. We also carry out free Disability Discrimination Act (DDA) and insurance inspection surveys, producing reports on compliance, followed up with a competitive quotation.
