Dear planner

[REDACTED]

The plans submitted and if approved will fail to protect patients [REDACTED] but furthermore there is a reduction in floor space. We already have to wait for an appointment and this will cause further delays to due to less rooms [REDACTED]

Furthermore would i have to wait on the ground floor office and be let in when they were ready. Having two kids under 5 this would be very hard. How putting a healthcare centre in the basement is encouraged by Camden. ?

How this would work is absurd and unheard of.

kind Regards

Kinjal Shah
