2016/6903/P	Mr P C Medawar	2 St Geoirge's Mews	27/01/2017 16:49:37	COMMNT	This property has one almost unique period feature - a door at first floor level into which hay was pitchforked from carts into the loft and then to the horses at ground floor level. The application doesn't state if any change is planned, but I very much hope not. The existing door could be converted to a windowed door, in character with other buildings in the Mews kluni
