2017/0110/A	Jeff Claxton	Jeff Claxton 122 Southampton Row	27/01/2017 13:22:02	OBJNOT	I wish to object to this application on the grounds that the internally illuminated digital screens by reason of their location, size and design and method of illumination would be unduly dominant and visually obtrusive in the street scene, failing to preserve and enhance the character and appearance of the area and harming the setting of the adjacent buildings. This seems contrary to policies CS5 (Managing the impact of growth and development) and CS14 (Promoting high quality places and conserving our heritage)
