Subject: Objection against planning 2016/6194/P

Dear Jonathen McClue,

I am writing to you to object to the proposed planning at the Malmim Dental practice, I gather the intention is to move the whole practice to basement level.

I suffer form chronic claustrophobia and it would not be in my health interests for the practice to move downstairs. The practice does excellent work which benefits from natural day light coming into the building, this would not be the case if it moved to basement level.

Yours sincerely,

John Wilson
