2017/0016/P	Dr Peter Williamson	4 Lupton Street NW5 2HY	31/01/2017 22:30:32	COMMEM AIL	<p>I lodged a complaint about the erection of these solar panels on 27th July 2016, and have only been notified about this retrospective application today, 31st January 2017 - the final date for comment being 1st Feb 2017, despite being told that I would get a response by 18th August 2016, which never happened. That is wholly unacceptable.</p> <p>It should be noted that these panels are not erected on a South-East facing roof, but two East facing roofs, where they will be much less efficient.</p> <p>My main complaint is that the said rooves are too low and face the street, so are clearly visible and an eyesore in the middle of the Home Zone. That is clearly in contravention of the guidance issued by the Department of the Environment.</p>
