Area A and B: Proposal is to supplement the existing walls with additional 1.8m high steel railings with a gate to be installed between the separating wall on the right and the old refuse store on the left.

An additional matching railing is recommended to be fixed atop the separating wall.

The new entrance gate will be fitted with a lock linked to the existing door entry key fob system and an emergency fire override facility.

Are you supplying additional information on submitted plan(s)/drawing(s)/design and access statement?

☒ Yes ☐ No

If Yes, please state references for the plan(s)/drawing(s)/design and access statement:

Area A provides access off a wide pedestrianised part of North Gower Street (see drawing 8712/NGS/010).

To maintain the open appearance of the existing entrance area it is proposed that 1.8m high steel railings with a gate are installed between the separating wall on the East wing and the old refuse store on the left North wing (see drawing 8712/NGS/10, 8712/NGS/14, 8712/NGS/15, 8712/NGS/16).

Modify/refurbish bike/buggy store: to enhance overall usage of the space the proposal includes installing wall mounted bike racks. In addition, a new door similar to the proposed gate would improve visibility in and out of the refuse store (see drawing 8712/NGS/12).

Area B provides access off a wide pedestrianised part of North Gower Street (see drawing Camden 20160920v3-8712NGS021).

To maintain the open appearance of the existing entrance area it is proposed that 1.8m high steel railings with a gate are installed between the separating wall on the North and atop the low lying separating wall to the South. (see drawing Camden 20160920v3-8712NGS021, Camden 20170119v3-8712NGS022 and Camden 20170119v3-8712NGS023).

Both areas include the introduction of fencing and gates which will have minimal impact upon the street massing and character whilst reducing the potential for anti-social behaviour. The gate/fencing design will mirror the design found at the nearby Regents Park Estate (NW1).
