2017/0664/T	CRASH	45 Compayne Gardens NW6 3DB NW6 3DB	03/02/2017 14:32:45	OBJEMAIL	From the information available on the website it is not possible to tell which trees are proposed for felling and which are proposed for reduction as there is no cover letter/application form and no annotation of the "tree plan" attachment. These trees form an important part of the streetscape. Removal should be resisted. There is no reason given for the removal e.g subsidence, light, danger, disease etc. They should be pollarded and thinned at lower level rather than felled.
