

Application No:	Consultees Name:	Consultees Addr:	Received:	Comment:	Response:
2016/6699/P	B.M. Shaughnessy	20 Kylemore Road London NW6 2PT	09/02/2017 17:39:05	OBJ	<p>This application to 'discharge' Condition 31 overrides the meaning and purpose of the condition in itself. If Essential Living are permitted to demolish without the specific agreed approvals of detailed plans for the construction and piling of the tower block it is a breach of the original agreement. The condition which formed a key part of the safeguarding element of the permission is lost if it is made null and void by planning officers</p> <p>The current application also itemises issues which were not passed in the earlier ruling by the Secretary of State or been put out to consultation appropriately: ie closing the market and access to Swiss Cottage tube. Camden following planning guidance must advise that this application be re-registered as a 'variation' as it is not valid 'discharge'.</p> <p>Camden's transparency and probity is at stake and it would be a scandal if this application was granted without scrutiny</p> <p>verification and circulation of construction details, especially those that impact Swiss Cottage underground station.</p> <p>We suggest that this application be refused as it stands.</p>
