

Tree Section – Private Land
London Borough of Camden
Judd Street
London WC1H 8ND

Dear Sir/Madam ,

Feb 3rdth 2017

Subject: Planning Ref: 2017/0102/T and 2017/0085/T Address: 20 Thurlow Rd

2017/0102/T	20 Thurlow Road London NW3 5PP	REAR GARDEN: 1 x Lime - Fell	REGISTERED	10-01-2017
2017/0085/T	20 Thurlow Road London NW3 5PP	(TPO REF 22H) FRONT GARDEN: 1 x Lime - Fell	REGISTERED	10-01-2017

I live on the top floor of 21 Thurlow Rd. I have lived at this address for nearly 30 years and seen these trees mature. They are both on the right side of our house and not directly visible from my flat – except a small stairway window. But I do see the trees every day when I exit and enter the building. I enjoy them especially when they are all green.

I realise that these types of lime trees are a nuisance with the nasty insects that cause the trees to drip a sap type of liquid that covers everything under it. Seems some of my neighbours are concerned about this aspect of the tree.

While I do understand how annoying this sap is, being it covers my car like a sticky glue that is difficult to remove, I cannot agree that this is a valid reason to request the trees, including one in front that is TPO Ref 22H to be felled.

Therefore I strongly object to the felling of these two trees. Perhaps they could be the subject of pollarding or reduction.

Sincerely Yours,

K.E. Clauss
