Hi Raymond

I believe you are the Planning Officer on the above application. I met with Michael and Aimmee yesterday and they kindly took me through the plans to clarify them for me. What was not understandable from examining the plans on the Planning website was that the extension width has been reduced on the immediate neighbours side and therefore offering number 11 greater privacy. They also showed me that the repairs to the front glazing were essential and ensure that the presentation at the front was much more sympathetic. I am satisfied that all these things address the concerns I raised on the Comments section of the website. I would therefore like to withdraw my objections as I feel they have addressed all.

Please acknowledge receipt of this.

Thanks.

Kind regards

Dee Wright
