Hello Matt – I'd like to know more about these phone box applications. Do you want to contact them, or shall I?

- 1) It's not explicit that the "telephone" panes in the dome will remain after the full strip-down. The originals need to be left. How will they be illuminated? Hopefully, by the existing lamp in the dome.
- 2) How will the business advertise itself? Will there be stickers in the windows, etc? We will need control of this.
- 3) We need details of the suspended ceiling. How will it be fixed and to what?
- 4) Some phone boxes have a red cylinder at the base concealing cables. What will happen to this?
- 5) We'll need sample glass; it needs to be identical to normal phone box glass. In the drawings it seems tinted.
