I live on Monmouth Street (our house backs onto Neals Yard), and this is already a loud and busy area after midnight. The aforementioned application will extend noise disruption to local residents even further. 'Disruption' currently involves general noise and traffic, drunk and disorderly behaviour, along with all manner of other illegal activities - naturally we are keen to restrict these as they are intrinsically linked to late night social activities in the neighbourhood.

Your sincerely,

Mr Harry Darby & Ms Anna Hodgson
