Fast growing, up to 2m;  
dense;  
installed at app. 1.6m;  
evergreen

**Victoria / Ceanothus**  
Beautifully flowering;  
dense;  
Installed at app. 1.5m;  
slow growing

Existing Railing

# Planting Plan Aberdare Gardens 21A Roof Decking

**Wysteria**  
Climber / run along railing and stick / trellis

**Screen (left and right)**  
The combination of the dense, fast growing, hedgelike Prunus with the beautifully flowering Ceanothus (Victoria) will instantly provide a good and also visually pleasing screen at app. 1.5m and should, by the end of the summer 2017, have grown to an evergreen screen of app 1.7/1.8m height.  
The Camelia and Wisteria, as well as Jasmin, should provide additional support, screen and, most importantly, beautiful and colourful flowers at different times of the year.
