2017/0035/P	Virginia Southon	22 Well Road	19/02/2017 15:12:48	COMMNT	<p>A retrospective application to comply with Building regulations for fire safety reasons-after all this time? Are we surprised, not really. So Camden planning and Building regulations dept. , where does the poor person go to after being trapped on the second storey green roof? Leap? shimmy down a drain pipe? or are we to assume another application will appear in the future to deal with this anomaly? Or possibly.....maybeits just to enable access to a roof terrace?</p> <p>We object on basis of following:</p> <ol style="list-style-type: none">1)Potential change of use from green roof to a roof terrace, due to current advertisement of such in property magazines .2)Potential loss of green roof.3)Potential loss of privacy to surrounding neighbours4)Potential noise pollution. Our bedroom is at same level as terrace and noise travels very clearly.5)This property is ridiculously overdeveloped. Advertising it with a "fine roof terrace" in glossy magazines is not going to help it sell after 5 years!
