| The height, bulk and massing of the proposed scheme is considered appropriate and the restrained design is an appropriate response to the location. The proposed residential accommodation would largely comply with the relevant residential development standards. A noise/vibration report and air quality assessment would be required to demonstrate that future occupiers would not suffer as a result of the site's proximity to railway lines. |      |
| The proposal is not considered harmful to the amenity of adjoining occupiers in terms of noise or overlooking, but a daylight / sunlight report would be required to demonstrate that the proposal would not have a detrimental impact on daylight or sunlight to neighbouring properties.   |      |
| A Construction Management Plan would satisfy transport concerns and in terms of sustainability, the proposal would need to comply with Code Level the Code or Sustainable Homes.   | 4 of |
| Having regard to the above considerations, were an acceptable scheme submitted the following heads of terms as part of a s106 agreement are likely be required of the development: Car-capped housing; Construction Management Plan; Highways contribution; Post-construction sustainability review.
