Application # 2015/6955/P

Dear Jonathan McClue

As I live in Holsworthy Square, and close neighbour of Panther House and Brain Yard, I've followed the development stages closely.

I think that this is now a truly great design!

And I really admire Dukelease for the way they have gone about it all, and for finally coming up with a place that enhances the area in many different ways - as well as remaining sufficiently beneficial to them in business terms.

They've got my vote, so I hope they get yours too :-)

With best wishes
Ann Winchester

PS We've been working hard, as a community, to get a better result for the Mount Pleasant site. We have a design which, compared to the stark Post Office proposal, has lower rise buildings, a better community feel, more greenery and social space - yet *which also houses more people!*

So we hope you guys will pass that, too, in due course?
