2016/7054/P	philip matthewman	82 burghley road NW51UN NW51UN	21/02/2017 17:09:41	COMMNT	The Daylight report is incorrect , in that it refers to the Wardlow Council block as "community centre" , when it is in fact residential flats. There is no community centre at that location whatever. Loss of daylight to those flats is ignored on those grounds, and thus the report is invalid. Furthermore, the loss of daylight on 91 Burghley Rd should be taken in aggregate with the loss of daylight it has already suffered from the 2004 construction., and not just as 20% normally relevant.
