I have heard from my old neighbour friends that there is a plan to build nine floor building behind the house I lived there for decades at 21 Oval road if this plan goes ahead the few periodic buildings in front of Oval road will diminish the glory and character of beautiful Victorian buildings  
Oval Road has already been darkened by those Ugly buildings built at the end of Oval Road when I was living there myself  
I would be grateful if you reconsider your plan and leave the yard behind as it is at present

Yours faithfully  
Leah Christophorou
