2016/6699/P	Jelena Marinkov	36 Eton avenue	24/02/2017 22:38:38	OBJ	This is going to far now. How many times they are asking for the same thing. Already 5000 people signed against it. It is too big for the area. We do not have infrastructure to support all those people. The building will take away little green area we have. Pollution will drastically increase. Neighbors do not want this monster in our street.
2016/6699/P	Sanya Polescuk on behalf of Belsize Residents Association	8a Belsize Court Garages	25/02/2017 17:26:09	OBJ	Demolition should not be permitted to commence until final detailed foundation plans have been fully approved by an independent assessment/report presented as sealed bids and conducted by an external civil engineering company. Currently, detailed design and assessment reports” are still pending and some of the “outline method statements” are incomplete. Given the entirely new proposal to close the entrance to the underground station and close the public service of the market, as well significantly disrupt the entrance to Hampstead Theatre, this application should be registered as ‘variation’, not a ‘discharge’ in order to conduct an informed public consultation. The council should reintroduce “a further condition to ensure a (building) contractor is in place ready to erect the approved building following demolition” in a continuous manner.
