**3. Description of Proposed Works**

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s):

I would like to vary the upper floor construction from the planning permission already obtained.

To date the extensive foundations have been built and we will soon begin to construct the ground floor extension as per planning permission. While engaging with building control I was told for the first time that my scheme needed fire lobbies, and a fairly extensive fire escape. For this reason I am asking to vary. I would prefer to move the kitchen into the bottom of the ground floor extension and to separate this with a fire lobby. I would then move the dining room into the existing lower ground space; leave my bedroom where it is, and move the living room into the existing kitchen/dining room.

The proposed change will be to expand the size of the upper room so that it lines up with the existing kitchen wall in front of it, to put a small bathroom off the back of this bedroom, and to use the remaining upper floor created by the lower floor extension as a terrace.

This is at variance with existing plans where I have permission to enclose the entire double story extension.

All of this adheres to previous listed building discussions, to new discussions about fire lobbies, and takes into account any discussions with neighbours.
