My enquiry is

Dear Sir/Madam,

I would like to comment on the planning application 2017/0201/L - Hoxton Hotel - Newton Street.

I'm concerned by a number of factors with this application.

1. The amount of noise in the area has increased greatly since the hotel was opened. Residents have had problems with noise from the hotel and it's deliveries. Although they have fitted a gate which limits access this now means the problems with the noise from delivery vehicles has moved onto Newton Street rather than in the courtyard itself. Extending the capacity of the hotel will lead to a further increase in noise.

2. This area is primarily a residential area and an extension to the hotel will effect residents by reducing light, increase noise and there may be privacy issues with guest bedrooms overlooking existing residential areas.

3. Currently there are three developments in the immediate area, meaning that building noise is constant and invasive. Another development will just compound this.

Thanks

Paul
