MY COMMENTS

These premises are already being used as a place of worship.

In the past I have seen Men praying in the courtyard and I have been under to get to the entrance of the flats to visit my friend, I had to walk the long way ^{around}

also when they leave the premises they stand around in large groups on the pavement many times I have had to step off the kerb onto the road to get past.

There is a cafe at the bottom of Malden Rd which is used by Men and they walk back and forth to Cheston and the cafe during the day in groups and talking very loudly
