C3 Opportunity to improve symmetry

There are large side dormers at 17 Belsize Park Gardens (to the west), 21 Belsize Park Gardens (to the east) and at 8, 10, 14 Belsize Park Gardens (to the north). Thus the proposed side dormer at 19 Belsize Park Gardens allows for improved symmetry on all relevant visual perspectives:

1. Improved symmetry of the fully detached villa that comprises 17 and 19 Belsize Park Gardens.
2. Improved symmetry of the “border gap” between 19 and 21 Belsize Park Gardens.
3. Improved symmetry on opposing villas on the northern versus southern side of the street; between 17, 19, and 21 (south) versus 8, 10, and 14 (north).

PS 11: Existing dormer at 19 E BPG (of smaller scale than 17 and 21 BPG)

PS 12: The larger side dormer at 17 BPG (the “twin” to 19 E)

PS 13: The border gap between 19 and 21 BPG

PS 14: The border gap between 19 and 21 BPG
