Design and Heritage Statement

Existing northwest facing view of Vivary Cottage - garden and entrance elevation

This application relates to Vivary Cottage which is a grade 2 listed building in the Hampstead Conservation Area - Sub-Area Eight.

It is one of a pair of Grade 2 listed buildings, Vivary Cottage and Lavender Cottage, which were probably built in 1845 by William Hopper or 1846 by H.Hill. The cottages are not identical but they do share original features.

Vivary Cottage has a small rear extension at ground floor level to the hall at its rear and a side extension supported on brick piers at first floor level. Both extensions appear to be mid 20th Century.

The windows facing northwest, shown adjacent, appear to be original solid timber casement windows which match windows at Lavender Cottage.

Views of existing rear elevation

Planning History

No significant planning applications appear to be listed.

The proposed alterations are:

1. to replace the existing single glazed steel windows and double glazed upvc window with double glazed timber casement windows to match original timber casement windows, as shown on the accompanying drawings.
2. To remove some existing partitioning, which is not original, at first floor level and build new partitioning as located on the accompanying drawings.
3. To re-lay falls and re-cover the existing flat roof single story extension with new treated timber furrings, rafters, roofing boards and new roofing felt, with lead flashings to match existing.

Access Statement

The access to Vivary Cottage will be retained as existing.

No consultations have been conducted.

Footpaths, roads, emergency vehicle access are retained as existing.

This Design and Access Statement is to be read in conjunction with the planning application forms and the following documents:

- Drawings numbered: V-L01, V-EX-P01, V-EX-E01, V-EX-E02, V-EX-E03, V-EX-D01, V-EX-D02
V-PR-P01, V-PR-E01, V-PR-E02, V-PR-E03, V-PR-D01, V-WD01, V-WD02, V-WD03

The National Planning Policy Framework sets out that 'In determining applications, local planning authorities should require an applicant to describe the significance of any heritage assets affected, including any contribution made by their setting. The level of detail should be proportionate to the assets' importance and no more than is sufficient to understand the potential impact of the proposal on their significance.'
