Elegant in design the Frameless Infiniti Sliding Door offers a unique product with only 17mm sight lines. The Aluminium profiled system combined with highly efficient double glazed units provides a high quality sheer glass product that maximises light and ensures the outside is truly reflected inside.

Maximising your living area is key to creating a functional and stylish home, our cutting-edge Frameless Infiniti Sliding Doors offer uninterrupted views with cutting edge technology.

With applications ranging from luxury commercial and residential projects to internal partitions, the Frameless Infiniti Sliding Door is able to offer a versatile solution to any project and to any design.

We utilise an ethos of consultation and project management like no other company ensuring the project brief is clear and manageable at all stages.

This approach not only guarantees transparency but also perfectly designed and installed GlassRooms systems.
