Reason: To safeguard the amenities of the adjoining premises and the area generally in accordance with the requirements of policies CS5 and CS17 of the London Borough of Camden Local Development Framework Core Strategy and policy DP26 of the London Borough of Camden Local Development Framework Development Policies.

Informative(s):

- 1 Reasons for granting permission.

The proposed ATM is considered appropriate in its design, size and location to the appearance of the shopfront and the host property and will not harm the character of the streetscene. The ATM would be located within a town centre and installed on the front elevation of the building within a busy parade.

There is currently a CCTV camera installed outside the premises facing the street. The applicant has been confirmed that this would need to be repositioned to provide coverage for the ATM to reduce the opportunities for crime and anti-social behaviour.

The pavement along the street is wide enough to prevent congestion and queueing problems and to provide adequate accessibility for all users.

The recommendations received from the Police are secured by conditions. No objections have been received prior to making this decision. The site's planning history was taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies CS5, CS14 and CS17 of the London Borough of Camden Local Development Framework Core Strategy, policies DP24, DP26 and DP30 of the London Borough of Camden Local Development Framework Policies and policies D1, C4, C5 and TC2 of the Camden Local Plan Submission Draft 2016. The proposed development also accords with The London Plan 2016 and the National Planning Policy Framework.
