

I live in nearby Willow Road and strongly object to yet another basement; the water table problem is worsening yearly. My own lawn has become more and more saturated with water. Willow Cottages will suffer greatly and lose even more light. I thought that Camden was tightening up on these incessant building projects which cause Hampstead to lose all its original charm and make people's lives a total misery. The water level is a nightmare as it is. More thought should be given to the environment of residents,
Alix Tystad , 23 Willow Road
