2016/7146/P	Margaret Benz	13 Christchurch Hill NW3 1JY	07/03/2017 00:33:33	OBJCOMP AP	This application is an abomination to Hampstead Conservation. How can there possibly be any reason to excavate foundations of homes and undermine the stability of houses built in the 1800s? I urge the planning committee to reject this proposal and all proposals for basements in Hampstead.
2016/7146/P	Nicola Beauman	35 Christchurch hill	06/03/2017 06:26:52	OBJEMPER	Dear Sir, I would like to object to this application. Having lived in Hampstead for thirty years, I am convinced (for various reasons I won't go in to here) that the terrain is getting more and more fragile and that to allow wholesale excavation on this sloping and delicate area of housing is a huge mistake and will, one day, somewhere, end in disaster. Vast basements are completely unnecessary, if people want bigger houses they should find them and buy them, rather than destroying the terrain for themselves and for those around them. Quite apart from the agony the building work would impose on the neighbours and particularly the people in Willow Cottages. Indeed, for this last reason alone this application should be refused. Yours Faithfully Nicola Beauman
2016/7146/P	Dr P Winter	1 Christchurch Hill NW3 1JY	05/03/2017 17:00:36	COMMEMP ER	I object to the construction of this basement for the following reasons : - there are a large number of underground streams in this area and this work is very likely to affect the terrain of surrounding buildings -the close proximity to neighbouring buildings (within 5 meters) and the likely impact that this construction will have on these old buildings -the impact that this work (as well as similar work proposed for house No. 33 of the same road) to the neighbourhood
