2017/0475/T	stuart elliott	Flat 10 Langland Gardens	06/03/2017 19:02:05 INT		This planning map is totally useless. It shows a plot size but does not show those trees affected. The method of adding is again, useless. And in an age of on-line photo's why can't these be included so a better idea of what is being planned be gauged. Is this a case of following the rules but not taking matters seriously. Is this another Camden mess-up?
