2017/0501/P	Giulio Cabianca	40 Shoot-Up Hill	06/03/2017 19:35:22	OBJ	<p>The construction of the proposed structure will result in a visual barrier of the green area of the backyards from the flats in 40 Shoot-Up Hill, resulting in a cluttered view.</p> <p>The property can be reached only through the front yard of no. 40, and currenty 40A is often visited by many people in the morning hours for the nursery activity. As a result cars are sometimes temporarily parked in the corridor to access 40A. These cars will then need to reverse into the public highway, resulting in a safety issue.</p> <p>My fear is that the proposed tripling of bedrooms will result in a tripled nursery, exacerbating the existing problems.</p>
